Summer School

Theoretical and technologically related practical basics of quantum molecular computations

20-23 June 2022

Organised by: Semmelweis University of Budapest

The Summer School will be a 100% online event, accessible from anywhere via a zoom link. The zoom address will be available after application has been closed. It is open to all Euniwell students and staff.

Target groups: An MSc degree (ongoing or completed) would be an advantage for participants, but participants in a BSc course may also study. 4 closed semesters are recommended.

Background of students: Lectures require a background in chemistry, biochemistry, and biology, but only at intermediate level.

Programme language: English

Application deadline: 13 June 2022

To register for the Summer School, please send an email to Veronika Gresz greszveronika@gmail.com

Event supported by MaterialWell (materialwell.wordpress.com), a network within the EUniwell European University for Wellness.
Sustainable Future Strategies in Advanced Functional Ceramics for Human Well-Being

For master students, PhD students and all other early career researchers

July 10th-14th, 2022

AGH University of Science and Technology, Kraków

No Registration Fee – Available Seats are Limited (50).
